MOAB INTRODUCES Slickrock Metallic Silver 300

The first instant-dry, true-metallic inkjet paper

New York, NY (March 11, 2013) – Moab, a division of Legion Paper, the nation's premier paper company dedicated to the art of the fine print, is excited to introduce a new member to the Slickrock family, Slickrock Metallic Silver 300.

The new Slickrock Metallic Silver 300 is an ultra shiny, true metallic inkjet paper with a unique instant dry coating for jaw –dropping image reproduction. Slickrock Metallic Silver 300 adds unprecedented depth to an image featuring exceptional reflective shine never seen before. This metal-like surface produces images that jump off the paper and can be handled immediately after printing

Designed for photographers seeking to push their images to the limit with a metallic and dimensional look, Slickrock Metallic Silver 300 will shimmer in your galleries, studios, and art venues. Landscapes and portraits alike will pop on this new paper producing deep dark blacks with bright metallic highlights.

Reminiscent of the ultra-smooth and slick sandstone surface of the famous bike trail that loops through the desert plains of Moab, Slickrock Metallic Silver 300 captures the original beauty of an image adding a twist of silver enhancement.

The new Slickrock Metallic silver 300 is available in 25 sheet boxes sized 8.5"x11", 13"x19", A2 and A4 - and rolls sized 17, 24 and 44 inches wide by 50 feet long. For more information, and free ICC profiles, please visit www.moabpaper.com.
